EXECUTIVE DIRECTOR REPORT- Gordon Long

Presented in lieu of an in-person report

OCTOBER 2022

1. Signed Mokelumne Hill Fuels Reduction Project contract (5GG21172). Expect to receive executed contract back from CalFire within the next three weeks.
2. Sierra Growth Council grant application submitted by lead group Amador Resource Conservation District (ARCD) October 7th. CCRCD is a partner on this grant, along with ARCD, Tuolumne County Resource Conservation District (TCRCD), Alpine County Watershed Group (ACWG), Carbon Cycle Institute (CCI), and California Association of Resource Conservation Districts (CARCD). This was the grant that Lindsay Mattos of TCRCD gave a presentation last board meeting about.
3. No current field work being done on fire prevention/fuels reduction projects due to Fire Season designation by CalFIre and poor field conditions for this type of work. Expect to have two contractors start back up again when conditions improve and Fire Season designation suspended by CalFire.
4. Waiting on CalFire for payment of invoices and advance for the Murphys to Forest Meadows CalFire Grant (5GG19147). Our three contractors also waiting for payment from us, but we need payment(s) from CalFire in order to pay these contractors
5. Ad hoc meeting update on RFP's/contracts. Meeting with Board President Beckman, CCRCD staff Long and Simpson, plus project managers Pat McGreevy, Laurie Plautz, and Kaylee Dillashaw October 10 to review templates for Requests for Proposals (RFP's) for upcoming contracts, including Pine Ridge (SNC grant), Bummerville/Blizzard Mine. Expectation is to have finalized template accomplished by October 14, and give then to project managers for public posting in November. Still waiting to receive approved template for contracts from Calaveras County Counsel.
