Briefing Paper – Next steps in the sale of CCRC Main Building

Current parcel size - .89 acres (38,768 sq/ft) Current zoning is C2-Central Commercial

Previous parcel sizes - .25 acres (10,890 sq/ft) and .17 acres (7,405 sq/ft) Calaveras County Water District combined the two parcels prior to putting the property up for sale.

Existing Buildings - Two story office building (4,066 sq/ft) has two existing tenants, Common Ground and University of California Cooperative Extension. The single-story Boardroom (? Sq/ft) is vacant and has no electricity.

The parcel on which the office building sits will be greater than 5,000 square feet once it is split so it does not meet the exemption for size. There is still a need to determine if other exemptions apply. Are the adjacent apartments designated as low-moderate income housing and does that landowner wish to purchase the property for additional housing? Does another adjacent landowner wish to purchase the property? County Counsel strongly recommends hiring a consultant versed in public land/commercial real estate.

Next steps:

Determine process for selecting consultant/realtor, advertise RFQ, make selection.

Review and complete Surplus Land Act requirements.

Begin parcel split process based on costs and fund availability.

RCD AUTHORITY & APPLICABLE PROCEDURES TO SUBDIVIDE/SELL REAL ESTATE

- PUBLIC RESOURCES CODE—ARTICLE 10
 - **PRC 9452:** The directors are hereby authorized and empowered to hold, use, acquire, manage, occupy and possess property of any kind, and may lease or sell it as provided in this article.
 - **PRC 9453:** The directors may determine by resolution entered upon their minutes that any property, real or personal, held by such district is no longer necessary to be retained for the uses and purposes of the district, and may thereafter sell or lease such property.
 - **PRC 9455:** A sale or conveyance of any property held by a resource conservation district, executed by the president and secretary thereof, in accordance with a resolution of the directors of the district, when the property is sold for a valuable consideration, shall convey good title to the property so conveyed.
 - **PRC 9456:** The proceeds of any such sale shall be paid into the county treasury of the principal county for the use of the district.
- GOVERNMENT CODE
 - **GC 62262** does not apply; this is in a Division for “affordable housing authorities”
 - **GC 54220 et. seq:** The RCD does appear to be a “local agency” for purposes of the surplus government land procedures required under Gov Code 54220 et. seq.
 - Gov Code 54221 (a)(1) *“Local agency” means every city, whether organized under general law or by charter, county, city and county, district, including school, sewer, water, utility, and local and regional park districts of any kind or class, joint powers authority, successor agency to a former redevelopment agency, housing authority, or other political subdivision of this state and any instrumentality thereof that is empowered to acquire and hold real property.*
 - (2) *The Legislature finds and declares that the term “district” as used in this article includes all districts within the state, including, but not limited to, all special districts, sewer, water, utility, and local and regional park districts, and any other political subdivision of this state that is a district, and therefore the changes in paragraph (1) made by the act adding this paragraph that specify that the provisions of this article apply to all districts, including school, sewer, water, utility, and local and regional park districts of any kind or class, are declaratory of, and not a change in, existing law.”*
 - Once subdivided into two parcels, the parcel the RCD wishes to get rid of does appear to be “surplus land” for purposes of the surplus government land procedures required under Gov Code 54220 et. seq.
 - Gov Code 54221 (b)(1) *“Surplus land” means land owned in fee simple by any local agency for which the local agency’s governing body takes formal action in a regular public meeting declaring that the land is surplus and is not necessary for the agency’s use. [Your meeting should also comply with the PRC codes mentioned above] Land shall be declared either “surplus land” or “exempt surplus land,” as supported by written findings, before a local agency may take any action to dispose of it consistent with an agency’s policies or procedures. A local agency, on an annual basis, may declare multiple parcels as “surplus land” or “exempt surplus land.”*

- **Depending on your particular circumstances**, the property may be “exempt surplus land” that is not required to comply with the surplus government land procedures required under Gov Code 54220 et. seq.
 - **Gov Code 54221(f):** (f)(1) Except as provided in paragraph (2), “exempt surplus land” means any of the following:
 - (B) Surplus land that is (i) less than 5,000 square feet in area, (ii) less than the minimum legal residential building lot size for the jurisdiction in which the parcel is located, or 5,000 square feet in area, whichever is less, or (iii) has no record access and is less than 10,000 square feet in area; **and** is not contiguous to land owned by a state or local agency that is used for open-space or low- and moderate-income housing purposes. If the surplus land is not sold to an owner of contiguous land, it is not considered exempt surplus land and is subject to this article...**[so this depends on 1) size, 2) what it's next to, and 3) whether it will be sold to a next door neighbor]**
 - (D) Surplus land that a local agency is transferring to another local, state, or federal agency for the agency's use...**[so this depends on who the buyer is]**
 - (G) Surplus land that is subject to valid legal restrictions that are not imposed by the local agency and that would make housing prohibited, unless there is a feasible method to satisfactorily mitigate or avoid the prohibition on the site. An existing nonresidential land use designation on the surplus land is not a legal restriction that would make housing prohibited for purposes of this subparagraph. Nothing in this article limits a local jurisdiction's authority or discretion to approve land use, zoning, or entitlement decisions in connection with the surplus land...**[You'd have to ask Peter Maurer in Planning if this applies]**
 - (2) Notwithstanding paragraph (1), a written notice of the availability of surplus land for open-space purposes shall be sent to the entities described in subdivision (b) of Section 54222 prior to disposing of the surplus land...if the land is any of the following:
 - (B) Adjacent to a historical unit of the State Parks System.
 - (C) Listed on, or determined by the State Office of Historic Preservation to be eligible for, the National Register of Historic Places.
- **GC 54222.3** If your surplus property, after being subdivided, is “exempt surplus property” per the above, you do not have to utilize any of the surplus land procedures that apply to non-exempt surplus land.

ASSUMING THE PROPERTY IS NOT “EXEMPT SURPLUS PROPERTY”:

- **GC 54222:** notice requirements re availability of property
- **GC 54266:** you can sell at market value or at less than market value (so long as consistent with this Article of Gov Code)
- **GC 54222.5:** If someone wants to use the property for low/mod income housing, you need to record a deed restriction along with the sale that contains specific language
- **GC 52223:** If someone responds to your “notice of interest”, you have to negotiate in good faith for 90 days for a transfer in compliance with this Article of the Gov Code, and, only

after this period may you dispose of the property—and only to the extent that residential use remains on the table as an allowable use of the property.

- **GC 54225:** lets you provide for a 20+ year payment period in sale contract if land used for any of the following purposes: park/rec, open space, school, or low/mod income housing
- **GC 54227:** explains what to do if you get more than one “notice of interest” to purchase or lease the property
- **GC 54230.5:** HCD notice requirement & waiting period (and findings requirement) prior to finalizing sale contract; also penalties for non-compliance with this Article of Gov Code

ARTICLE I. PROGRAM OVERVIEW

AB 1486 (Statutes of 2019, Chapter 664) and AB 1255 (Statutes of 2019, Chapter 661) made changes to the Surplus Land Act (SLA) found in **Government Code Title 5, Division 2, Part 1, Chapter 5, Article 8. Surplus Land**. Generally, the purpose of the amendments is to promote affordable housing development on unused or underutilized public land throughout the state to respond to the existing affordable housing crisis. The amendments to the SLA adopted with AB 1486 and AB 1255 clarify and strengthen reporting and enforcement provisions of the SLA to promote increased compliance with the Act.

AB 1486 took effect January 1, 2020.

As of that date, HCD began reviewing notices that local agencies are required to send by email or U.S. postal mail pursuant to Government Code Section 54222(a)(1) and examining complaints and other information received or requested to confirm compliance with the SLA pursuant to Government Code Section 65585.1. As of that date, HCD also began collecting (in Table G of the Housing Element Annual Progress Report (APR)) information on jurisdiction-owned sites identified in the housing element sites inventory, and subsequently disposed of by the jurisdiction.

Beginning January 1, 2021, HCD is required to begin implementing Government Code Section 54230.5, including, but not limited to, adopting these Guidelines; reviewing each local agency's description of the notices of availability sent, negotiations conducted with any responding entities, and copies of any restrictions to be recorded against the property pursuant to Government Code Sections 54233 or 54233.5; submitting written findings to local agencies; and, if necessary, assessing penalties to local agencies that dispose of surplus property in violation of the SLA in conjunction with the Attorney General.

 - D) Forward to HCD a copy of any restrictions to be recorded against the surplus land pursuant to Government Code Section 54233 or 54233.5, whichever is applicable, in the form prescribed by HCD in Appendix B.;
And
 - E) If the local agency is a city, county, or city and county, beginning April 1, 2021, the local agency must report annually information about all locally owned surplus land sites pursuant to Government Code Section 54230. Reporting shall be in table H of the APR in accordance with APR instructions.
- (2) Housing sponsors, as defined by Section 50074 of the Health and Safety Code, may notify HCD of their interest in surplus land pursuant to Government Code Section 54222(a)(1) using the survey in Appendix D.

residential use may not require a conditional use permit, planned unit development permit, or other discretionary local government review or approval that would constitute a “project” for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. Any subdivision of the sites shall be subject to all laws, including, but not limited to, the local government ordinance implementing the Subdivision Map Act. A local ordinance may provide that “use by right” does not exempt the use from design review. However, that design review shall not constitute a “project” for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. “Use by right” for all rental multifamily residential housing shall be provided in accordance with subdivision (f) of Section 65589.5 of the Government Code.

Section 201. Notice of Availability

Any local agency disposing of surplus land, prior to disposing of that property or participating in negotiations to dispose of that property with a prospective transferee, shall send a written notice of availability (NOA) to certain parties designated in the SLA. The notice shall be in a form prescribed by HCD in Appendix A of these Guidelines and shall comply with the following.

- (a) Low- and Moderate-Income Housing Availability Notice
 - (1) A written notice of the availability of surplus land provided on the form contained in Appendix A of these Guidelines for the purpose of developing low- and moderate-income housing shall be sent to the following:

- (A) HCD and any local public entity as defined in Health and Safety Code Section 50079 within whose jurisdiction the surplus land is located. HCD will maintain on its website an up-to-date listing of all notices of availability throughout the state.
 - (B) Housing sponsors that have notified HCD of their interest in surplus land that is in the county in which the surplus land is located or in all California counties. Housing sponsors must notify HCD of their interest in surplus land by completing a survey provided by HCD. Those interested in receiving notices from local agencies based on HCD's expressions-of-interest list are responsible for keeping their addresses and contacts current.
- (2) An entity not on HCD's list may also respond to a NOA.
 - (3) All responses shall be time stamped by the local agency as they are received.
 - (4) All NOAs shall be sent by certified mail or email and shall include the location and a description of the surplus land.
 - (5) A NOA cannot be sent before the governing body for the local agency has declared the land for which the notice is being issued to be "surplus land", and any such notice sent prematurely will not be deemed valid.
- (b) Park, Recreation and Open Space availability notices shall comply with the conditions and follow the requirements as described in Government Code Sections 54221(f)(2), 54222, and 54227(b).

Section 202. Disposal of Surplus Land for Affordable Housing

After the governing board of a local agency has held the required public meeting for the disposition of surplus land, as described in Section 102(h) of these Guidelines, a Low- and Moderate-Income Housing Availability Notice described in Section 201(a) must be sent to local public entities and interested housing sponsors identified by the expressions-of-interest list maintained by HCD and invite those interested to respond to the local agency with a notice of interest.

(a) Negotiating Disposition of Surplus Land for Affordable Housing

(1) Response to a NOA of surplus land for the development of affordable housing

(A) 60 Days to Respond.

An entity or association interested in developing Surplus Land for affordable housing must notify in writing the disposing agency of its interest in purchasing or leasing the land within 60 days after the agency's notice of availability of the land is sent via certified mail or provided via electronic mail.

- (i) A local agency may not issue a request for proposals on surplus land less than 60 days from the date that the local agency issues the NOA of surplus land.
- (ii) If a notice of interest is received in response to a NOA a request for proposals may not be issued until after the conclusion of the 90-day negotiation period.

(B) Upon Receipt of Notice of Interest.

If a local agency disposing of surplus land receives a timely notice of interest from a proper entity, then a 90-day good faith negotiation period begins on the first day that the local agency and the prospective transferee actually begin negotiations. If the price or terms cannot be agreed upon after the full good faith negotiation period, then the local agency may dispose of the surplus land as provided by Government Code Section 54233.

(C) 90-Day, Good faith negotiation period. For purposes of the 90-day, good-faith negotiation period, residential use of the surplus land by the prospective transferee shall be deemed an acceptable use. Terms agreed to as part of the 90-day, good-faith negotiation period must comply with the following:

- (i) A local agency cannot prohibit residential use of the surplus land as a condition of a sale or lease.
- (ii) A local agency cannot reduce the authorized number of residential units or the maximum lot coverage of the surplus land below what is allowed by zoning or general plan requirements.
- (iii) A local agency may not require, as a condition of sale or lease, any design standards or architectural requirements that would have a substantial negative effect on the viability or affordability of a housing development for very low, low-or moderate-income

households, other than the minimum standards required by general plan, zoning, and subdivision standards and criteria.

- (D) For the purposes of complying with the SLA's requirements regarding NOAs, "participating in negotiations" does not include the commissioning of appraisals, due diligence prior to the sale or lease of the surplus land, discussions with brokers or real estate agents not representing a potential buyer, or other studies to determine value or best use of the surplus land, issuance of a request for qualifications, development of marketing materials, or discussions conducted exclusively among local agency employees and elected officials. (Gov. Code Section 54222(f))
- (E) If an entity believes a local agency has not negotiated with it in good faith pursuant to this section, the entity may notify HCD by emailing publiclands@hcd.ca.gov.
- (F) Sample negotiation process timeline. The following represents a sample timeline for a good faith negotiation per the definition in Section 102(m) of these Guidelines. Minor departures from this sample do not constitute per se bad faith, and differences in the timeline may be justified in extraordinary circumstances.
- March 1, 2020 – disposing agency sends a NOA of surplus land as described in Section 201;
 - March 10, 2020 – entity desiring to purchase or lease the surplus land sends notice of interest to disposing agency;
 - March 12, 2020 – disposing agency receives notice of interest from entity desiring to purchase or lease the surplus land;
 - March 13, 2020 – 90-day, good faith negotiation period commences, as described in Section 202(a)(1)(C);
 - April 30, 2020 – last day for an entity desiring to purchase or lease the surplus land to respond to the NOA;
 - June 10, 2020 – last day of 90-day, good faith negotiation period;
 - June 11, 2020 – first day that disposing agency may dispose of the surplus land without regard to the amendments to the SLA enacted by AB 1486. Disposing agency must still follow the original provisions of the SLA found in Government Code 54233.

(2) Terms

- (A) As part of the 90-day, good faith negotiation period, a local agency and a prospective transferee may agree to limitations on residential use or density if, without such limitations, the residential use or density would have a specific, adverse impact, supported by written findings, upon the public health or safety or upon the local agency's operation or facilities, and there is no feasible method to satisfactorily mitigate the impact.

- (B) For low and moderate-income housing purposes, a local agency may agree to a payment period for a sale of surplus land of up to 20 years in any contract of sale or sale by trust deed for the land. Such payment period may exceed 20 years but shall not exceed the term that the surplus land is required to be used for low- or moderate-income housing.
- (C) A local agency may sell surplus land at fair market value or less than fair market value.
- (D) Agreement between the local agency and buyer.
 - (i) Failure to agree on sale/purchase price of land: If “fair market value” was determined by a single appraisal, a second appraisal value commissioned from a mutually acceptable firm may be averaged with the initial value to determine a sales price.
 - (ii) Partial lease/acquisition: Agency may accept a partial lease or sale of originally advertised land as long as remnant parcel is sufficiently large enough to attract bidders upon re-advertisement, written justification for the action is to accompany Appendix B report to HCD, and HCD approves the action.
 - (iii) Agency change of mind: With prior approval by HCD, and initiated by submission of a written “notice of withdrawal” sent to all housing sponsors, local public entities, and HCD, a local agency may withdraw its NOA. Proposed withdrawal shall be supported by a written explanation submitted to HCD explaining need for a withdrawal.
 - (iv) Conditions and restrictions required by the local agency as seller: The local agency may provide potential “qualified sponsors” with the city’s vision for the land in question which must be included in the NOA and approved by HCD pursuant to Section 400. The parties are required by the SLA to then negotiate in good faith. If it appears that the parties cannot resolve issues that would preclude a disposition within the 90-day negotiation period, the parties may discuss the issue(s) with HCD.

(b) Payment Period for Surplus Land Disposed of in Contract of Sale or Sale by Trust Deed

- (1) If surplus land is disposed of for housing for persons and families of low and moderate income, the payment period shall not exceed the term that the land is required to be used for low- or moderate-income housing.
- (2) If surplus land is disposed of for park or recreation purposes, for open-space purposes, or for school purposes, the local agency may provide for a payment period of up to 20 years.

(3) Competing Bids

- (A) A local agency may negotiate concurrently with all entities that provide notice of interest for the purpose of developing affordable housing that meets the requirements of Government Code Section 54222.5.
- (B) In the event that any local agency disposing of surplus land receives a notice of interest to purchase or lease that land from more than one of the entities to which a NOA was given, or from one entity to which a NOA was given, and one or more entities to which a NOA was not given, the local agency shall give first priority to the entity or entities that agree to use the site for affordable housing that meets the requirements of Government Code Section 54222.5 described as follows:
 - (i) Not less than 25 percent of the total number of units developed (which number includes density bonus units) shall be affordable housing as defined by Section 102(a) of these Guidelines.
 - (ii) If more than one entity proposes the same number of units that meet the requirements of Government Code Section 54222.5, priority shall be given to the entity that proposes the deepest average level of affordability for the affordable units.
- (C) If the local agency receives notices of interest from more than one entity that agrees to meet the requirements of Government Code Section 54222.5, then the local agency shall give priority to the entity that proposes to provide the greatest number of units that meet the requirements of Government Code Section 54222.5.

(4) Grounds for local agency to reject offer:

- (A) A local agency may reject an offer when the local agency and buyer cannot agree on sales price.
- (B) A local agency may reject an offer when priority is given to a competing application that includes a greater number of affordable units or, in case of a tie in the number, the lowest average level of affordability consistent with Government Code Section 54222.5.
- (C) A local agency may reject an offer when the bidder is not responsive to a local agency's reasonable goals/preferences as described in the NOA, where consistent with these Guidelines and SLA, and such goals and preferences are approved by HCD.

(c) Requirements If Negotiations End with No Sale or Lease of Surplus Land

(1) Local Agencies That Are Not Districts.

- (A) If the local agency does not agree to price and terms with an entity to which NOA of land was given pursuant to this article, or if no entity to which a NOA was given pursuant to these Guidelines responds to that notice, then the land in question may be sold to any buyer for any purpose.

In such a case, if 10 or more residential units are developed on the property, not less than 15 percent of the total number of residential units developed on the parcels shall be sold or rented as affordable housing as defined by Section 102(a) of these Guidelines.

- (B) The entity shall agree to the following additional requirements:

- (i) Rental units shall remain at an affordable housing cost to, and occupied by, lower-income households for a period of at least 55 years. Ownership units shall remain at an affordable housing cost to, and occupied by, lower-income households for a period of at least 45 years. The initial occupants of all ownership units on the property shall be lower-income households and the unit shall be subject to an equity sharing agreement consistent with Health and Safety Code Section 65915(c)(2). Any subsequent occupants shall also be lower income households, if necessary, for the unit to remain occupied by lower income households, for at least 45 years.

- (ii) The requirements set out in subdivision (a) above shall be contained in a covenant or restriction recorded against the surplus land at the time of sale, which by its express terms shall run with the land and shall be enforceable by any of the following parties, against any owner who violates the covenant or restriction and each successor in interest who continues the violation:

- I. Any resident of an affordable ownership or rental unit described in subdivision (a).

- d. A person on an affordable housing waiting list who is of low or moderate income, as defined in Section 50093 of the Health and Safety Code, and who is able and willing to occupy a unit subject to this provision of the Guidelines.

(C) A local agency shall provide a copy of any restrictions recorded against the property to HCD as an attachment to the form prescribed by HCD in Appendix B.

(2) Districts.

(A) If a local agency that is a district, excepting those whose primary mission or purpose is to supply the public with a transportation system, disposes of surplus land where local zoning permits development of 10 or more residential units or is rezoned within five years of the disposal to permit the development of 10 or more residential units, and 10 or more residential units are developed on the property, not less than 15 percent of the total number of residential units developed on the parcel shall be sold or rented as affordable housing as defined by Section 102(a) of these Guidelines, and the additional requirements contained in Section 202(c)(1)(B)(i-ii) of these Guidelines shall apply.

(B) A local agency shall provide a copy of any restrictions recorded against the property to HCD on the form prescribed by HCD in Appendix B of these Guidelines.

Viability of building a lower elevation Sierra Nevada Mountain Range recreation trail

Potential Grantor: The Sierra Nevada Conservancy- Prop 68 funds

https://sierranevada.ca.gov/wp-content/uploads/sites/326/2020/01/2019_SNC_RecreationAndTourism.pdf

Grant Background

- The Pacific Crest Trail is a wildly popular hiking trail that uses the highest elevations of the Sierras for its footprint, that extends north to Canada south to Mexico. It is 2,650 miles long and is traversed during the snow-free season which lasts about 5 months, depending on latitude. It is a single way trail, in that it is not a loop.
- Why don't we determine the viability of a lower elevation trail that can be accessed more months of the year, and have it near the western boundary of the US National Forests and Parks? When done, it could allow a loop of the Sierra Nevada Mountains if connected with the Pacific Crest Trail. If we built it near private properties and private inholdings, those landowners could provide services to the hiking clientele such as lodging and meals, transportation, cache storage, supplies.
- In Calaveras County, we have the Mokelumne Coast to Crest Trail that could be extended and made more viable with additional hiking opportunities nearby.
- There are many examples of how having a well-established and popular trail system promotes local rural communities and keeps tourism dollars in those rural, sometimes under-served communities and counties. Examples include the Appalachia Trail, the hut to hut trail system in New Zealand, the Canadian Sunshine Coast Trail, Ireland's Ring of Kerry, Mt. Blanc in the European Alps. The Sierras are well-loved by millions of Californian and international travelers alike.
- Since its lower elevation, more people with potential health issues associated with high altitude would be able to utilize it.

Grant Idea

- Pitch this idea SNC and their regional rep, Michael Pickard. This grant fund pool, called "Vibrant Recreation & Tourism Grant". It has no deadlines, it has a rolling application process. If Michael likes the idea, he would give us a worksheet to fill out and return.
- Pitch the idea to all RCD's in the Sierras for collaboration. CCRCD could be a lead collaborator and holder of the grant, or we use the ACT team of RCD's which I'm sure they would be willing to consider. We have a great working relationship with Amador and Tuolumne County RCD's.
- 1st grant may be just a viability study to determine if this is even a possibility. If we get go ahead, we would likely collaborate with all our Sierra RCD's, the national forests and parks we would cross, county governments, recreation groups, etc.

- Building trails is not rocket science. SNC wants the California Conservation Corps to be involved if the work is appropriate. Having the CCC do the actual trail building would be ideal.

PRELIMINARY GRANT NAME: Converting Climate Change Combustibles to Carbon Friendly Products

GRANT CONCEPT IN 3 SENTENCES: The NRCS has many approved forestry practices that treats vegetation to increase forestry health, resiliency, and wildfire suppression, yet removal of large stems of treated trees are most often burned on site or log decked, which causes the release of air-borne carbon to enter the atmosphere at unacceptable rates, especially for the environmentally conscience state of California. Paying for the removal or integration of wood chips into the soil may not be the highest profile work that could get done in our state's threatened forests, but it might be one of the most important for their future sustainability and resilience to climate change and forest fires. This grant would either pay for the shipping and hauling of these tree stems to a processing plant to create products or to a co-generation plant to produce green energy or have the stems masticated and interred in the ground so that the carbon can be stored long-term as a carbon sink on-site.

NOTES:

- Look into the NRCS program "National Water Quality Initiative (NWQI)". Might link water quality with soil health to enhance this project idea. (Oct 20, 2020). Not many watersheds in California signed up, especially not in Sierra Foothills or north coast range.
- Engage partners in wildfire zones to inter fire-killed trees into soil to start restoration.
- 2020 was a seminal year for wildfires in CA. As of Nov 19, 2020, the fire statistics kept by CalFire are quite startling. 4,197,628 acres burned, 9,279 incidents, 31 fatalities, 10,488 structures damaged or destroyed.
- Interring debris and promoting prescribed burns are not mutually exclusive. They can complement each other,

Fuel Break Maintenance Project

Another Grant concept that could be looked at would be to partner with CALFIRE and Fire Safe Councils to develop a priority plan and implementation plan for maintaining important fuel breaks.

We all see the need and the \$ being given out in grants to build new fuel breaks. Yet, collectively we don't have the ability or the resources available to us to maintain all these fuel breaks. We should delve into each CWPP (Community Wildfire Protection Plan) in the 10 Sierra Counties and converse with CALFIRE units to determine which fuel breaks warrant 3-5 year maintenance. We can't keep all fuel break clear for 10+ years. Resprouting of masticated brush and oaks alone make many fuel breaks non-conforming within 3-5 years of the initial work. Get together RCD's FSC's and CALFIRE and determine which 2-3 fuels breaks per county should receive periodic re-treatment. Also consider using livestock and herbicide to lengthen the usefulness of these important fuel breaks.
